RECYCLING & RECYCLING CONSULTANT
(814) 943-8975

DAVID M. BURGMEIER
President

P.O. BOX 929
ALTOONA, PA 16603

Attention to all BHI customers,

We are publishing this letter in an effort to inform you that you may receive a rate increase for services beginning January 1, 2021.

We work hard every day to keep our operational costs as low as possible. However, just as 2020 has been a tough and unfortunate year on everyone, we here at Burgmeier's Hauling are not immune to the problems plaguing society.

Specific to the waste industry we've seen massive increases in the volumes of waste coming from residential clients. In fact waste volume is up 30% nationwide this year.

Furthermore in late 2020, all of the landfills in our service areas have been bought by 2 large international corporations. In Maryland, the only landfill within our service area, will be closing down. Leaving us with no choice but to transport that waste out of the state.

With little to no competition amongst landfills, disposal rates will be increasing. While we always try to absorb as much of this cost as we can, inevitably some of it is passed on to the customer.

This year we will celebrate our 45th year in business. We are proud to be one of the few family owned and operated waste hauling businesses left in our area. We will continue to work hard to keep our operational costs as low as possible while providing good jobs and excellent service to you.

Thank you for your attention and understanding of this matter and thank you for your continued business and support. We wish you all a healthy and prosperous 2021.

Sincerely,

Mathew Burgmeier

Vice President
