ALTOONA, PA 16603

Burgmeier's Hauling customer,

Unfortunately, as of April 2022, we have been forced to add a fuel surcharge to all of our accounts. As of this letter an additional 2% will appear on your invoice noted as a fuel surcharge.

Like all of you, we have been subjected to ever increasing expenses. In fact, many of you will note that we had to previously raise our rates for 2022. That increase has quickly fallen short as fuel costs have continued to reach new all-time highs. The average price of diesel currently is over \$5.00 per gallon. The current benchmark for a fuel surcharge in the Atlantic region of the United States is 4%. We are absorbing 50% of this cost, but we cannot absorb all of it.

We understand that everyone is struggling during these times and that every day your hard-earned dollar buys less and less. We understand because we are in the same situation.

To stay functioning as a business and to continue to provide a needed service, we must react and adjust to an ever-changing economy.

Please know that we will continue to work hard to reduce expenses where possible to keep our rates as constant as we can. We appreciate you as a customer and are thankful for all of you who have been patient with us where we have stumbled.

The fuel surcharge is not something we plan to implement permanently, and our hope is that fuel prices will decrease, and we will be able to remove it and get back to normal.

I hope you have a nice Easter weekend with your families, and as always thank you for being a customer.

Matt Burgmeier
